

T/N:

Be sure to check [batoto](#) description for a basic chronicle of how this comic came into being.

Ideally, I should translate the sfareoid background material. But the swag and sctine in them are too strong that I don't know how to translate them without losing 90% of its value. So deal with it. At least you have Zhao the Heaven "Bloop" (eventually).

## 第1话：狼虎之地

Ch.1: The Land of Wolves and Tigers

## Lit, Wolves Teeth District

Can't you take me to  
my destination directly?

I'm really sorry, little bro.  
Here...it's already...

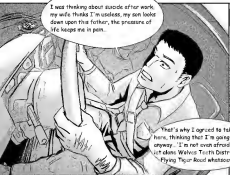

Indeed... normal people  
would rather die than  
coming to Wolves Tooth  
District, let alone Flying  
Tiger Road.

But I can see, you  
are more than that...

How about telling me  
what happened...  
Of course, only if  
you're willing...

I was thinking about suicide after work,  
my wife thinks I'm useless, my son looks  
down upon this father, the pressure of  
life keeps me in pain...

That's why I agreed to take you  
here, thinking that I'm going to die  
anyway... 'I' is not even afraid of death,  
let alone Wolves Tooth District or  
Flying Tiger Road whatsoever.

But I regretted right  
after I came here...

The air here is terrifying  
and suppressive, filled with  
smell of despair...

It's hardly bearable to  
simply approach here...

I don't even have the courage  
to face here, let alone death!

I'm such  
a coward...  
too useless!

No...on the contrary

I saw...courage in you!  
You dare to come to Wolves  
Teeth District, pressure of  
life is just nothing!

If you face your life with the courage you  
have to come to Wolves Teeth District.  
You can achieve anything!

**You...are the pride  
of TAXI DRIVERS!**

Thank you! My savior!  
I'll no longer feel  
at a loss!

Although I don't know  
what you're going to do  
in the hell-like Flying  
Tiger Road, but please!  
Tell me your name!

For the future of 100k pupils  
For changing the cursed fate  
For changing Primary School (Private)  
The Judgement  
is my destination!

The name,  
Li the God Killer!
